

Dear Crew Member/Airman/Controller

Please find attached a copy of your medical file, which is impossible to process through the new Aeronautical Medicine Application SIGMA2, in operation since August 2nd and with countless errors that prevent the signature and correct completion of all documents that are part of an aeronautical examination file.

Nor is it possible to issue Medical Certificates in paper format following the instructions received from the Aeronautical Medicine Section (AMS) of AESA in a circular dated 04 August at 14:09 h.

Given this impossibility to generate AERONAUTICAL MEDICAL CERTIFICATES with the new SIGMA2 application, I inform you that these are the results of your qualification so that you can inform whomever you deem appropriate

The Air Medical Examiner

.....,

has completed the AERONAUTICAL MEDICAL EXAMINATION of Class 1 / 2 /3 /LAPL/ AFIS/CC

on ..... August 2023

to Mr/Ms:

.....

With DNI/NIE/Passport number .....
